5 books of Moses - (Torah)

---

Here is the overview:

Gen	Ex	Lev	Num	Deut
TORH	TORH	YHWH	HROT	HROT

It appears that the Torah (TORH) always points *toward the Name of God.*

# Checksum in the Torah - 8

- CONCLUSIONS - 1:
- if any word, even ONE letter, is removed from the TORAH, this checksum falls “apart”.
- **original Hebrew** “Covenant Contract Language” is meticulously accurate, dependable, and perfect!

# Checksum in the Torah - 9

- CONCLUSIONS - 2:
- shows that the “original” Hebrew text is “original”, NOT corrupted
- Specific patterns point to a “designer”
- undeniable evidence of a Designer (Creator).
- The Creator has even put a message in the checksum of the “INSTRUCTIONS”

# Checksum in the Torah - 10

- CONCLUSIONS - 3:
- “No matter where you are in the “INSTRUCTIONS” (TORAH , 5 books of Moses), the INSTRUCTIONS always point to “YHVH”.

# Checksum in the Torah - 12

- Try writing A BOOK such that the:
- 1<sup>st</sup> letter is a: T
- 50<sup>th</sup> letter is a: O
- 100<sup>th</sup> letter is a: R
- 150<sup>th</sup> letter is a: H

# Checksum in the Torah - 13

- CONTINUE repeating the pattern:
- 200<sup>th</sup> letter is a: T
- 250<sup>th</sup> letter is a: O
- 300<sup>th</sup> letter is a: R
- 350<sup>th</sup> letter is a: H
- etc. for 100,000 letters
- then 100,000 letters BACKWARD
- while 100,000 letters in CENTER with your NAME (total of 304,805 letters)

# Checksum in the Torah - 14

- CONCLUSIONS - 4:
- Can you see this becomes an “IMPOSSIBLE” task”?
- Once again, this points to an AUTHOR who is far beyond human intelligence.
- Do you think Moses was even aware of this pattern?
- When we are in heaven and meet Moses, let’s ask him.
